Career Coaching Academy

Imagine a world where...

- Students graduate high school with a clear picture of what they want to do
- Students avoid taking on unnecessary college debt
- Students jump into careers that they are passionate about and gifted in
- We have a more talented and driven workforce!

j.kruse
education
center

"We are a career exploration center focused on helping individuals discover their future.

We do this through 1 on 1 coaching sessions, hands-on experiences, and an app for digital connectivity and exploration.

We can support businesses by offering them the opportunity for app exposure, connection of individuals to their business as well as providing an initial relationship between student and employer."
